

WHEN YOU WANT FAST AND TOUGH YOU WANT NORTON ABRASIVES

Whether you want maximum productivity or simply the best cost solution, Norton and Merit have the product for all your right angle grinding and blending applications.

NEW

BEST Norton SG Blaze Plus

Highest Productivity, Lowest Total Cost

Latest generation ceramic alumina abrasive provides the industry's fastest cutting discs and 50-200% longer life over any flap disc on stainless, titanium, and super alloys.

NEW

BETTER NorZon BlueFire

Exceptional Blend of Performance and Price

New zirconia alumina plus abrasive for an increased cut rate and up to 30% longer life over conventional zirconia products on carbon steel and welds.

NEW

GOOD Merit Metal

Excellent Performance, Low Initial Price

Engineered blend of two high performance zirconia products provides the best starting specification when price is primary consideration.
