

NORTON

JB8 SHARPENING BENCHSTONE DISPLAY LAUNCH A COUNTER ATTACK ON DULL TOOLS

With This Eye-Catching Display to Encourage Impulse Buys!

The Norton Crystolon (silicon carbide) sharpening benchstone is an optimal size for most flat tool sharpening needs – knives, scrapers, plane blades, and more. The coarse/fine combination grit configuration offers one stone with many uses.

Now put it all together in one attractive, anniversary-boxed, pre-loaded display and you have the right combination for any showroom counter or sales desk with minimal investment.

Compact, corrugated design – small footprint with add-on sales potential.

Display Unit With 12 JB8 Silicon Carbide Coarse/Fine Combination Grit Benchstones

A TOOL IS ONLY AS GOOD AS ITS EDGE™

BETTER

For most abrasive applications, Norton offers up to three product performance levels – GOOD, BETTER and BEST. Norton JB8 Benchstones are in the BETTER tier. They represent superior performing products for the user who requires a high level of productivity and low total abrasive cost.

To put Norton abrasives to work for you, call your local Norton distributor or visit our website at www.nortonabrasives.com to view our online catalog and learn about our latest products and applications.
