## For Truing Today's Tough Ceramic Grinding Wheels

Premium, durable grinding wheels are hard on consumable tooling and require an advanced-engineered truing solution. Norton Premiere Reverse Plated diamond rolls provide superior durability and profile retention, with excellent workpiece surface finish.

### KEY APPLICATIONS

- Truing ceramic grinding wheels including Norton Targa (TG), Quantum (NQ), and Norton SG
- May also offer significant benefits for many applications using conventional abrasives

### FEATURES

- Premium engineered diamonds and technology for truing/profiling durable, hard grinding wheels
- Highly engineered diamonds are more consistent
- Extended form holding

### BENEFITS

- Improved durability and profile retention minimize wear on consumable tooling
- Result in better surface finishes
- Lowest total cost of consumable tooling per workpiece

### Norton Premiere Reverse Plated Diamond Roll Availability

All Norton Premiere Reverse Plated diamond rolls are made to your exact specifications. Contact your Norton sales representative to review your application and requirements.

### Using Norton Premiere Reverse Plated Diamond Rolls AND Quantum Grinding Wheels

### The Ultimate Quantum Leap in Performance and Value

### BEST

For most abrasive applications, Norton offers up to three product performance levels – GOOD, BETTER and BEST. Norton Premiere Reverse Plated diamond rolls are in the BEST tier. They represent products that are unmatched in the industry and provide the lowest total cost for the application.

To put Norton abrasives to work for you, call your local Norton distributor or visit our website at [www.nortonindustrial.com](http://www.nortonindustrial.com) to view our online catalog and learn about our latest products and applications.
