The Non-Loading Solution for Your Right Angle Grinder Applications

Extra coarse, sharp, silicon carbide abrasive and cooling ridges make fast work of all your masonry, concrete, marble, and granite surface preparation and stock removal jobs – without loading.

USE NORTON FASTCUT DISCS WITH NORTON AIR-COOLED BACK-UP PADS FOR OPTIMUM PERFORMANCE.

FEATURES

- Extra coarse 16 grit, sharp silicon carbide abrasive grain
- Engineered specifically with cooling ridges
- Type 27 flat faced, depressed center-shaped, with heavy fiber backing

BENEFITS

- Quickly penetrates and removes any coatings (adhesives, paint, acrylics, mastics, etc.) then aggressively grinds concrete, marble, granite, and other stonework
- Minimize loading by creating an interrupted cut; remain free-cutting and last longer
- Ideal for demanding right angle grinder jobs, at comfortable low angles

TECHtip

Maximize performance by grinding at a low angle.
