New Trimmable, Flexible Plastic Back Plate

Premium Abrasives Blend

with New Trimmable, Flexible Plastic Back Plate

For full use of the flaps, the new Norton TwinStar flap discs are the answer. Higher-performance abrasive flaps are mounted on our new easily-trimmable plastic back plate. Industry standard 5/8-11 mini mount ensures maximum safety for all right angle grinders.

Best productivity on mild carbon steel, ferrous metals, and cast iron

FEATURES

- New, premium ceramic and zirconia alumina abrasive blend
- New orange, plastic back plate material
- Eliminates the 2-step grinding/finishing process of depressed center wheel and resin fiber disc

BENEFITS

- Excellent performance and efficiencies on mild carbon steel, ferrous metal, and cast iron applications
- Easily trimmable – and the plastic wears away as the flap discs grind
- Full use of each flap
- Reduces labor costs for disc changes and material costs by full use of trimmable flap discs, vs. partial use of wheel and fiber discs

BEST

For most abrasive applications, Norton offers up to three product performance levels – GOOD, BETTER and BEST. Quick Trim TwinStar products are in the BEST tier. They represent products that are unmatched in the industry and provide the lowest total cost for the application.
